

Jobs Function Schematic

Desktop Web Portal

GTO App

Office Staff

Allocate jobs to your entire team through the desktop web portal. Simply select the job type, customer, site, equipment reference and engineer.

Engineer

Log into the app and click the jobs icon to view your current work list. Open the required job adding the relevant cylinder details, comments and mark the job as complete.

Office Staff

All the job information the engineer enters into the GTO app is immediately available through the web portal. View gas usage, comments or download your choice from a number of F-Gas reports
